

QED Performance Ruby Anniversary Evolution

QE1315

PERFORMANCE RUBY ANNIVERSARY XT 50M

Ruby Anniversary EVOLUTION is a completely new design from the QED laboratories in celebration of FORTY years at the forefront of UK speaker cable design. This large cross-section cable

cleverly utilizes low inductance AirCore Technology from QED Genesis and X-Tube cables to overcome distortions caused by the skin effect. This is the most cost effective starting point for any serious hi-fi upgrade.

Features

- High Low density polyethylene dielectric
- Five 99.999% Oxygen Free Copper conductors
- 5 low density polyethylene filler rods OD 1.02mm
- AirCore Technology
- Jacket OD - 6.00mm
- Cross-sectional area - 3.10mm
- Loop resistance - 11m ohms/m
- Capacitance - 35pF/m
- Inductance - 0.50H/m
- Dissipation factor - 0.0006
- Recommended for mid to high end two channel installations
